November 6-7

ABX SUSTAINABILITY TIPS

- Consider building your booth display out of recycled materials
- Use lightweight materials to save on shipping expenses
- Reuse your own flooring for multiple years, or rent carpet through Freeman and select from their sustainable options
- Print all necessary graphics and collateral on 25% - 100% recycled materials and use vegetable-based inks when available
- Opt for eco-friendly items when choosing attendee swag
- Look for the Energy Star logo on product packaging when selecting appliances
- Replace any incandescent bulbs with LEDs
- Power down all display, monitors and booth lighting each night after show/set-up hours
- Avoid shipping unnecessary items to the convention center and consolidate your booth materials into a single shipment
- Consider your packing materials and avoid packing peanuts, #6 plastics or foam
- Find ways to recycle all or part your booth instead of sending it to the landfill
- Take advantage of the BCEC's donation program, Convention CARE
- Bring your own reusable water bottle to the show every day, coolers will be available on the expo floor for refills
- Avoid replacing the sheets and towels in your room during your stay
- Use a ride-share option or public transportation whenever possible
